THE BAKING POWDER QUESTION SOLVED Most housewives pro-

claim that the baking

powder question was solved for them the moment they used the first spoonful of Calumet. After that no doubt remained-no hop ing-no searching for a perfect leavener-no wondering if bak ings would "turn out all right.

has solved the question because in all these thirty years it has never failed to produce wholesome and appetizing foods at an economical cost. It is as pure and sure as any baking powder ever made.

Calumet is more economical than other brands selling for less because its quality is the highest—no losses from spoiled bakings Use Calumet once-that's enough to prove to you that it's "best by test."

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure souset a pound when you want it
